

"Cleaning for the better", clothes and spectacle donation drive

This Diwali season the students of SPIT college decided to celebrate their Diwali in unique way by celebrating it for others in the form of "Cleaning for the better", a Clothes and spectacle donation drive. Team Oculus in association with Ratna Nidhi charitable trust decided to do something for the society by giving back to it and making this world a better place. The donation drive aimed at helping people who toil tirelessly to maintain the drains of our city and rural Maharashtra.

The drive took place on 22nd, 23rd and 24th October, clothes were donated in huge number not only by all the students along with them faculty, non teaching and other staff were equally involved in this noble cause. To make this endeavour more enthralling, with every donation made, the students earned points. Four points for tees, eight for pants and thirty for spectacles, this brought out the competitive spirit within departments to win the most coveted SPIT Cup.

We collected over 2186 garments and 221 spectacles for donation over the span the three days and we hope the number rises in coming years.

"Clean for the good" donation drive was a remarkably successful event with huge participation. The noble initiative taken up by the students of SPIT to help the underprivileged, made this Diwali joyous for all. Students of SPIT showed an overwhelming response in being a part of this humbling and gratifying experience to represent the true values we all believe in, that is to help out those in need and do our part. Team oculus was thrilled to host such an amazing event with the help of their fellow students.
