Research and Development Committee

Project Exhibition 2018-19

Information Technology Department

The Research and Development Committee organized a Project Exhibition competition on 18th April 2019. For this competition, 24 groups had participated. The list of the project exhibited by Information Technology students are given below.

Group No.	Project Title
1	Self-Employment Opportunities Search using Web Crawling
2	eduConnect
3	Peer to Peer based Decentralized Cloud Storage
4	Peer Assisted Parallel Downloading System
5	Crop Recommendation based on Weather Prediction
6	Real Time Location Tracking System for Predetermined Routes
7	Indoor Object Tracking using WiFi Access Point
8	Smart Toll Collection System based on Vehicle Identification
9	Sign language interpreter & converter
10	Smart virtual fitting room
11	Smart Surveillance System for Detecting Suspicious Behaviour Using ML
12	Dynamic Load Balancing in Software Defined Networks (SDN) using Machine Learning.
13	Smart Ambulance

14	Enhancement of Security in Android Device using Malware Prediction with Machine Learning
15	Human Locomotion Detection using CNN
16	Self Driving Cars in a 3D Virtual Environment using Computer Vision
17	VideoGen: A Video Synthesizer
18	Effective Storage and Summarization of Legal Documents
19	Synchronized Video to Audio Description for Visually Challenged People
20	Stock Market Prediction based on Twitter Data and News Articles
21	AI Based Recruiting System
22	Mukhtasar: A Natural Language Processor for Multi-Document Summarization
23	Question Categorization based on Cognitive Level in Blooms Taxonomy
24	BizIntel: An Intelligent Business Analyzer and Visualizer
