Feedback from industry/ recruiters and professionals is obtained through department feedback committee. The provided feedback data is analyzed and incorporated for necessary implementation in curriculum and other developments.

Parent feedback is important for an engineering institute because it provides valuable insights into the experiences and expectations of the students' families. This information can help the institute identify areas where they are doing well and areas where they can improve, which can ultimately lead to a better overall learning experience for the students. Additionally, parent feedback can help the institute feel more connected to the families and foster a stronger sense of community.

The feedback was divided into different categories like perception, Institute's adherence to its mission statement, Curriculum, Teaching, Learning and Student performance, and Infrastructure and Facilities with few questions under each category. A total of 52 parents responded to the survey with 98% of the responses from the UG category.
