

Polyglottal India

Polyglottal India provides an efficient solution to the complex issues involved with localization of languages by giving instant translation for languages. The world has become a small global village and there is an increasing demand for language translation service.

We provide services that expedite translation jobs so that you can not only be assured of quality work, but save money as well.

SPECIAL FEATURES

- Speaker independent, continuous speech recognition
- Provision to add new words
- Currently no existing product for Indian languages
- Support for adding newer languages
- Each stage can work independently

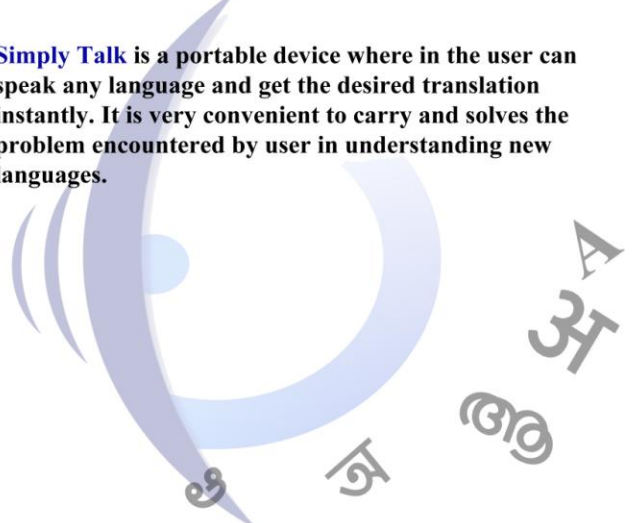

PRODUCTS

We at Polyglottal India believe in breaking the linguistic barriers. Our product, the language interpreter, provides instant translation of languages.

HANDHELD DEVICE

Simply Talk is a portable device where in the user can speak any language and get the desired translation instantly. It is very convenient to carry and solves the problem encountered by user in understanding new languages.
