Product: Present Point – An alternative presentation software

Project: Application to create presentations in the HTML format to expand compatibility

AsquareD Pvt. Ltd. has been established in the year 2014-2015 by the promoters Abbas Cyclewala, Aditya Rathi, and Darshan Godhia at Innovation & Entrepreneurship Development Centre, Sardar Patel Institute of Technology, Andheri (West), Mumbai.

The premier product of the company is the Present Point. Present Point is a multiplatform presentation software that offers Text, Shapes, Pen and other common design tools to develop presentations implementing CSS styling and animation to simulate the slide presentation policy to prepare presentations completely based on web pages. The product files are customizable HTML5, CSS files, which are dynamic in nature. The web animation schemes provide a better emphasis of the onscreen data, than traditional presentation tools. Furthermore, a skilled developer can not only use Present Point for creating jaw dropping presentations, but also utilize the end product flexibility to create eye catching webpages.
