Project : Emergency Aid and Calling Device

Right On Time Pvt. Ltd. was established in the year 2012 by the promoters Aparna Ramaswamy, Ankita Ghurye and Jagruti Kamat at Innovation & Entrepreneurship Development Centre, Sardar Patel Institute Of Technology, Andheri(West), Mumbai.

The framework of the project is based on the needs of the senior citizens at the time of emergency. Emergency Aid and Tracking device includes a wireless communication network for placing a call to one or more than one pre defined contact numbers. The contact number to which the call is placed can track the exact location of the user in need with the means of a G.P.S unit. The device is incorporated with a memory chip that includes the user's name, medical prescriptions and the records for health care purposes. The Moto of the company is to provide a compact wearable device which includes features of calling, tracking and medical security.

This project was fully funded by Department of Science and Technology, Government of India, New Delhi.
