Product:**Fingertech**
Project :**Fingerprint Recognition**

Contour Security Solutions was established in the year 2012 by the promoters Dhruv Panchal, Richa Saxena and Akshay Kanchar   at Innovation & Entrepreneurship Development Centre, Sardar Patel Institute Of Technology, Andheri(West), Mumbai.

Our product is Fingerprint Recognition System which is focused on providing fast**,** accurate and interoperable fingerprint recognition system for incorporation into final biometric applications. The system verifies the authenticity of user based on best feature matching score and accordingly returns user information for further verification.
Contour Security Solutions aims to bring the best fingerprint recognitionsystem to various biometric market segments and applications such as access control, network security and identification systems.

This project was fully funded by Innovation and Entrepreneurship Centre of Sardar Patel Institute Of Technology, Mumbai.
